Instructions for student activation on SKADEPT

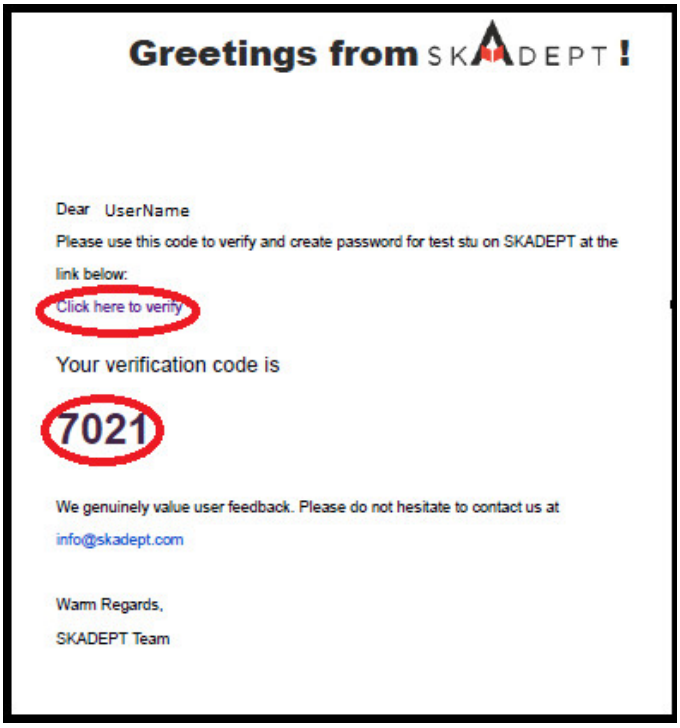

1. SKADEPT is best experienced on Google Chrome. Please download and install Google Chrome by visiting the following site:

https://support.google.com/chrome/answer/95346?co=GENIE.Platform%3DDesktop&hl=en-GB.

Here you will find detailed instructions on how to install Chrome on your computer, Android device and iphone & ipad.

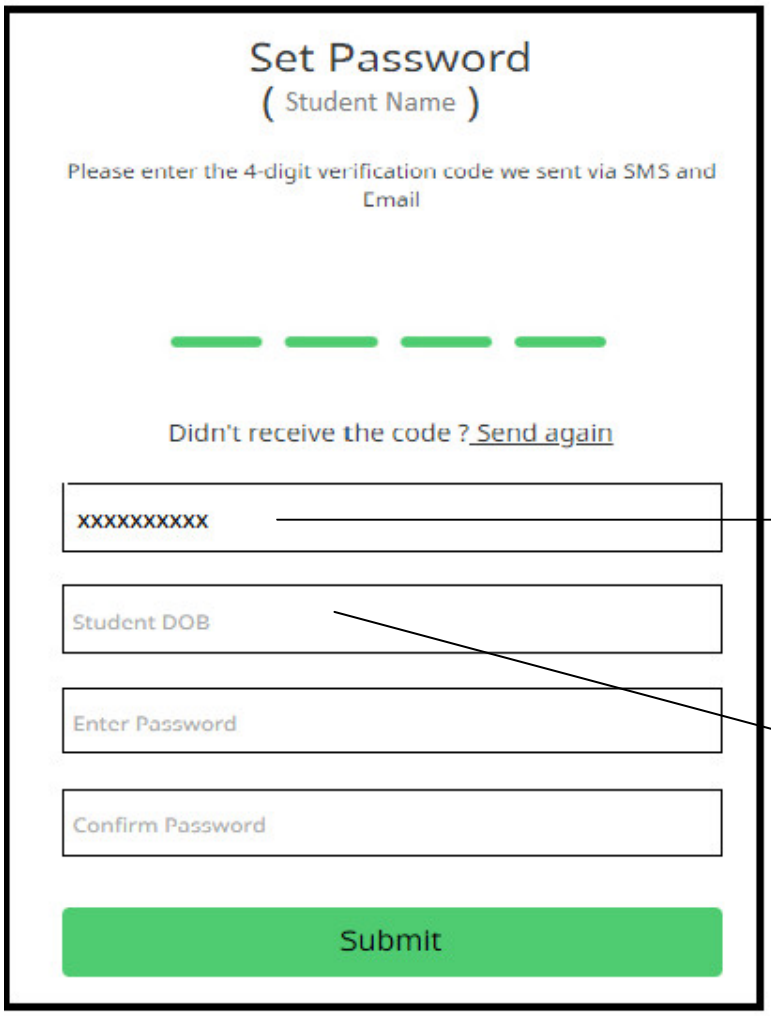

2. To log into SKADEPT you will use your 10-digit mobile number and a password always.
3. Before you can login, you will be asked to activate your account. What follows is a step by step method to activate and successfully access your account.
4. You will receive an activation mail and/or activation SMS on your registered email and/or mobile number that looks like the following:

Verification by Email:

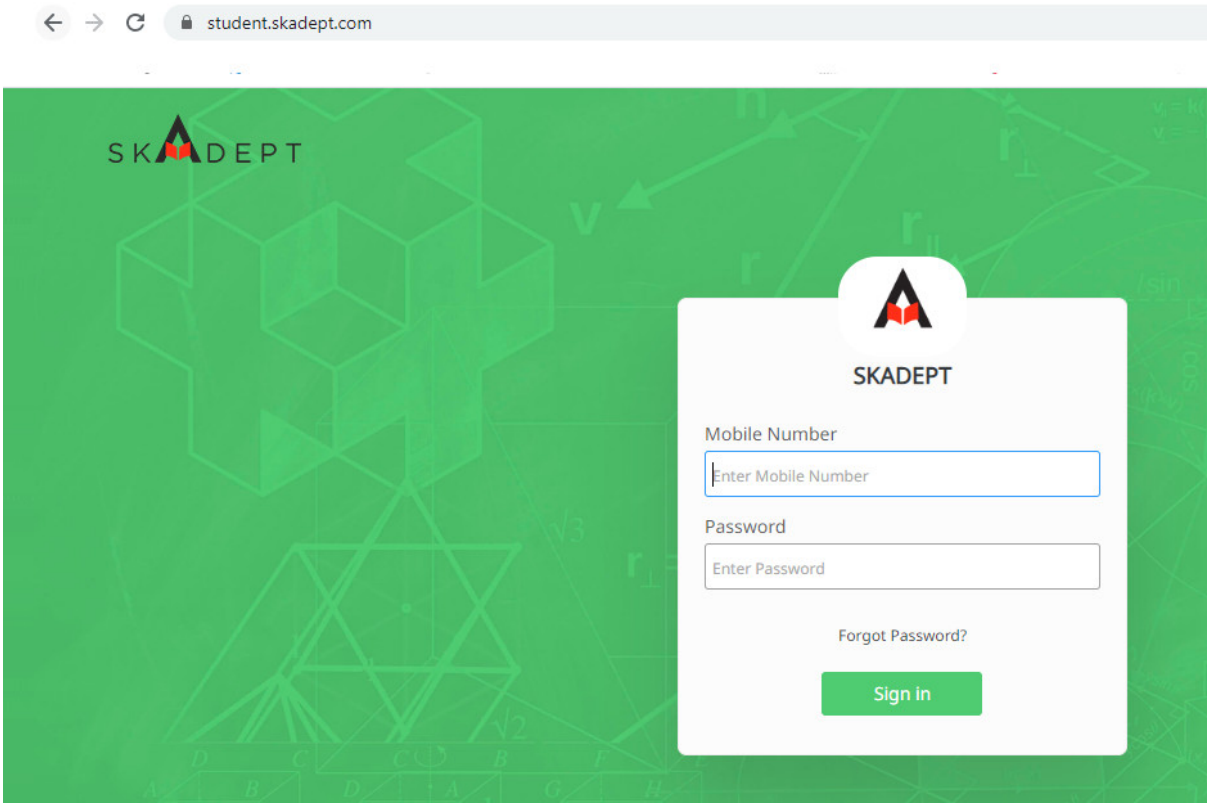

5. For emails, please click on the “Click here to verify” circled in red which will take you to a new page that looks like

Now fill in the 4-digit verification code where indicated. Follow this with filling out the date of birth (DOB) of your child enrolled in GAISSS in the Student DOB field. Now set a new password and confirm password in the next 2 fields and click Submit.

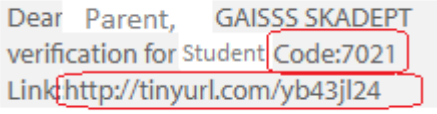

6. On clicking Submit you will be redirected to the following page:

Now enter the registered mobile number and your recently set password and click Submit to login into your child's SKADEPT account.

Verification by Mobile:

To activate your account using the SMS you receive, click on the link or copy paste into your Chrome browser and follow the exact same steps as for activating using email.

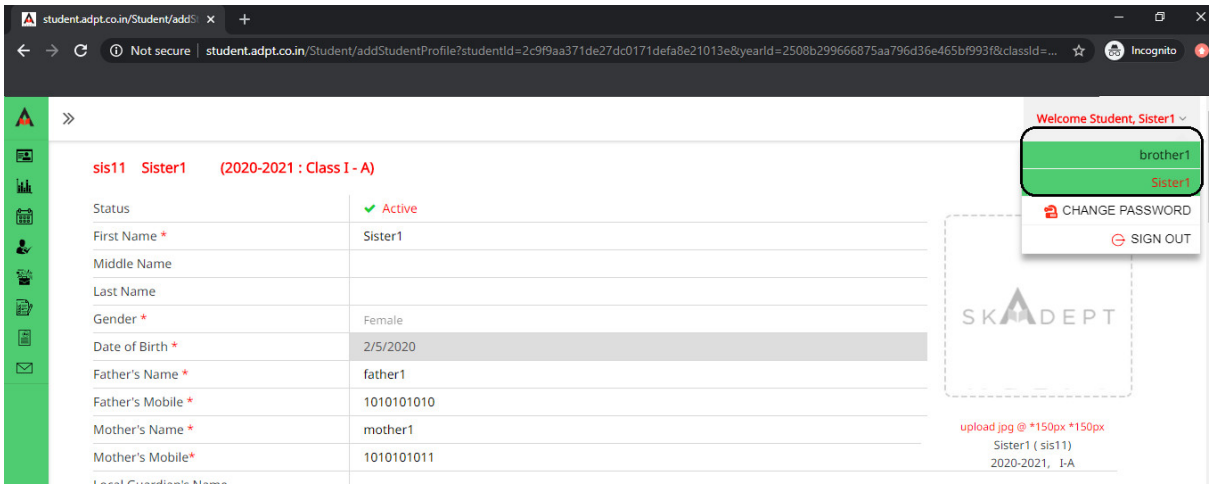

After activation, each student will receive a welcome email/sms confirming activation for SKADEPT.

Note: Here the activation links, tiny urls and verification codes provided are purely for illustrative purposes and they cannot activate your account. Each user will receive unique links and activation codes in their own emails and/or their registered mobile numbers which will have to be used for activation.

Note: If you have multiple children

Activating one child will activate and give you access to all children's account.

The same login can be used and you can choose between different students from the top right hand corner after login.
